Dear Ms. Pensyl,

I am not sure what deficiencies you are suggesting in your letter. But without any basis you are asserting that Carver is not in compliance with the Court Order. If entries do not exist in the electronic log, then they do not exist. As you know from Josef Malik's Declaration, the electronic logs were retrieved directly by TBS/Helm Connect. Entries have not been "omitted" in the production of the documents, and such an assertion by you and/or your firm, without any basis, is highly improper.

Under Rule 11, I am obligated to put you on notice that any misrepresentation to the Court by you or by members of your firm are subject to sanctions. Please withdraw these baseless allegations immediately.

As to portions of documents that you claim were "cut off" in the copying process, we will endeavor to produce full copies, assuming they were cut off in the production process.

Finally, we have not located a written or "rough" log for July 25, 2024-September 15, 2024.

Regards,
Jim Rodgers
